

TED ÜNİVERSİTESİ

04.07.2024

To Whom It May Concern,

Mr. Umay ŞAMLI is one of my most successful students. He has taken several different courses from me. In these courses, he has completed several tasks. From these tasks, I can easily indicate that he has the ability to analyze a problem and formulate a solution. In addition, as I have seen in many different academic reports for the courses, his writing, research, and analytical thought skills are truly exceptional. Therefore, due to the skills of Mr. Umay ŞAMLI, I have recommended him to you.

Mr. ŞAMLI is a hardworking, responsible, and creative person. He can obtain and apply the required knowledge to a problem for developing a solution. He is also a social person and has the needed skills in teamwork and collaborating with other people to solve a problem.

Therefore, I strongly recommend him to you. I trust he will go far in the academic world. Please, do not hesitate to contact me at ulas.gulec@tedu.edu.tr for further questions.

Sincerely,

Assist. Prof. Dr. Ulas GULEC

Department of Software Engineering

TED University
